Vins Vivants: vibrant wines in a glass.

sustainable

A healthy viticulture that promotes biodiversity in the vineyard, ideally certified organic or biodynamic

natural

Manual harvesting of high-quality, ripe grapes, use of natural yeasts and spontaneous fermentation

unfiltered

No sterile filtration, preferably no filtration and fining at all

pure

No corrections through additives, chemical additives or other interventions, as little added Sulphur as possible

precise

Clear, transparent, unadulterated flavors

... The wine has to be fun and that is exactly what these wines do.

		Glass	Bottle
Bubbles	Burgenland AT Rennersistas Pet Nat "In A Hell Mood" Bio St. Laurent 2022		75
	Pétillant Naturel - bubbles in the glass, fresher, fruitier and wilder than champagne, with a small yeast deposit. It refreshes the palate from the very first sip, without any added sulphur.		
White	Valais CH Le Vin de l'A Chasselas de l'A Vieilles Vignes AOC Chasselas 2022		69
	Chasselas with a difference. Alex Stauffer works on 3 hectares according to biodynamic principles. Everything is in harmony with nature, the lunar cycle and the terroir, without any additives, always firm and mineral and with a hint of citrus.		
White	Burgenland AT Rennersistas Intergalactic Organic Welschriesling, Chardonnay, Grüner Veltliner, etc 2023	9	63
	Through space and back again! With the Intergalactic, this trip for the palate is guaranteed. It just sparkles on the tongue. So much terroir in a glass, that's what vins vivants can do.		
White	Karst-Primorska SLO Vinogradi Fon Malvazija Malvasija Istriana 2021		77
	Grown in the hinterland of Trieste on karst soils, between the Alps and the Adriatic. A bomb in the glass. Minerality, depth, almost even a little umami. A new WOW with every sip.		
Orange	Vigneti delle Dolomiti IT Azienda Agricola Foradori Pinot Grigio "Fuoripista" IGT Organic Pinot Grigio 2022		79
	Fermented slowly and naturally in clay amphorae for 8 months on the skins. The bright orange contributes the zest of the Pinot Grigio and then there is a lot of power on the palate. Simply great!		
Rosé	Burgenland AT Nittnaus, Martin Zweigelt Rosé "Zorra" Organic Zweigelt 2022	9	63
	The younger generation of Nittnaus is also completely dedicated to nature. But Martin goes one step further than his father. With minimal intervention, he creates Zorra - tart, crisp, with a bright red fruit. Enchanting!		
Red	Valais CH Guillaume Bodin - Biodynamie & Cie Pinot Noir Chamoson AOC Pinot Noir 2022		83
	If sulphur is used, then it is of natural volcanic origin, with minimal use and only very selectively. Guillaume Bodin, an established name in biodynamics, conjures up a beguiling Pinot in the Valais style.		
Red	Burgenland AT Nittnaus, Martin Blaufränkisch "Manila" Organic Blaufränkisch 2022	9.5	64
	Manila is the name of the small vineyard that gives this wine its name. 100% Blaufränkisch, fascinating and with finesse. Depth, freshness, spice, a little leather and lots of dark fruit - that's how it should be.		
Red	Styria AT Strohmeier Winery TLZ Red No8 Organic Zweigelt 2017		85
	Grapes, love & time. That's all Franz and Christine Strohmeier need for their wines. It should be honest. The TLZ shines with dark berry fruit, accompanied by a variety of fine spices.		
Red	Sicily IT Frank Cornelissen Susucaru Rosso IGP Organic Nerello Mascalese, a.o. 2020		73
	What comes into the bottle here is not just pure and untamed nature, it is a great experience, a venture and a journey incomparably passionate, impetuous and yet of inner purity. The Taste of Etna!
